“The Business Solutions” Company

## **ABOUT BTS TECHNOLOGIES**

BTS Technologies was established by Facilities and IT professionals with over 60 years' experience combined. The need for professional service delivery is required by many corporates and the public sector with quick turnaround times. The difference maker in BTS Technologies is that it is client centric which allows the company to become a partner with its clients and not merely a technology vendor.

Level 1 Broad-Based, Black Economic Empowerment (BB-BEE) company

# SOME OF THE BRANDS WE OFFER TO OUR CLIENTS

#### Our Core Values

We integrate honesty, integrity and morally sound business ethics into all aspects of the business.

#### Our Vision
